

When you work with The Benefits Solution Group, Inc., you profit from highly leveraged relationships through a carefully assembled group of quality benefit insurance companies. These insurance companies are committed to developing innovative products and resources and delivering the highest level of service possible to you. Furthermore, we are able to gauge product performance and suitability in order to determine appropriate product and plan designs for clients. We use tools such as customizable web-based employee benefits surveys to gain a clear understanding of whether certain products will meet your specific objectives.

Executive Benefits

A company's most important asset is its key talent, and finding ways to reward, retain, and recruit key executives is an ongoing challenge. We afford clients a wide range of both traditional and innovative Executive Benefit solutions ranging from specialized products to unique plan designs.

Group Benefits

In today's complex group benefit market, we supply specialized resources for the decision-making process, as well as multiple products from multiple carriers. We offer additional resources in the form of Dedicated Resource Units specifically designed to help better serve our clients. These include experts in tax, legal and plan design strategies for corporate benefits.

Voluntary Benefits

We offer traditional and non-traditional voluntary benefit solutions to provide you with alternative means to control cost and continue to offer competitive and flexible benefit programs. **NFP Benefits Worksite Solutions** strategy takes advantage of more than 50 years of collective experience leveraging unique capabilities and turn-key solutions in enrollment, products and services.
